Dear Sir or Madam,

We are Davenport School of the Arts TSA (Technology Student Association) Chapter Team, our team consists of 6th through 8th grade students. TSA is an organization dedicated to expanding STEM education in our community. Each year our TSA members compete in a competition that span a wide range of STEM related events from Architecture and Construction Technology, Communications Technology, Computer Science and Information Technology, Leadership, Manufacturing and Transportation Technology, STEM (General), STEM and the Arts, and Technology and Research. Members acquire many skills related to the events they choose to participate in, such as leadership skills, presentation skills, and working in a team environment. TSA hopes that the skills members acquire will help them in their careers and throughout the rest of their lives. Our chapter has been extremely successful through out the years, recently at the 2022 Florida TSA competition in Orlando we were awarded the following:

- 1st place: Prepared Speech
- 2nd place: STEM Animation, Digital Photography, Leadership Strategies, and Career Prep
- 3rd place: Data Science and Analytics, Inventions and Innovations, and Tech Bowl
- 3rd place: Spirit Award
- 4th place overall for the State of Florida TSA Conference

We are asking that you would consider sponsoring our Chapter Team to compete this year for the 2023 Orlando, Florida TSA State Conference in February and National TSA Conference in Louisville, Kentucky, June 28th – July 2nd.

We are asking for business partners to help ease the financial burden for team members to attend the conferences.

We hope that YOU can help support our members in advancing their STEM education!

Thank you for considering sponsoring us!

Regards,

Davenport School of the Art TSA Chapter Team
